Phase 2 Roadmap

12-month plan from current 3-person operation to world-class 10-person platform. Current state, gaps, milestones, hiring, financials, and risk.

01 — SITUATION ANALYSIS

Current State vs. Phase 2 Vision

Area	Phase 1 — Now	Phase 2 — Month 12
Team	3 people, no departments, everyone does everything	10 people, 5 departments, clear accountabilities
Financials	No tracking. Revenue and costs untracked formally.	Zoho Books: real-time P&L, tax compliance, payouts
CRM	None. No customer lifecycle visibility.	Zoho CRM: full creator + subscriber lifecycle
Creator Intake	Informal. No welfare screening.	9-stage welfare-first ATS (Zoho Recruit)
Marketing	Manual broadcast scripts. No campaigns system.	Zoho Campaigns: segmented, automated, measured
Reliability	Silent failures. Crashes lose work. No observability.	BullMQ: zero silent failures. OpenTelemetry: full traces.
Creator Comms	In-app notifications (get lost). Manual outreach.	Slack-only: personal #ext-[handle] per creator
Ops Automation	Manual scripts, cron one-offs, fire-and-forget.	n8n: 8+ automated workflows, auditable, reusable

02 — STRATEGIC PILLARS

Five Pillars of the Transition

01

Business Infrastructure
Zoho One (CRM, Books, Campaigns, Recruit, Sign), financial tracking, tax compliance, formal department structure.

02

Creator Welfare & Success
Welfare-first ATS, creator Slack onboarding, training program, monthly check-ins, distress protocol.

03

Platform Reliability
BullMQ event bus, circuit breakers, OpenTelemetry, service extraction, zero silent failures.

04

Marketing Engine
Manual scripts → automated lifecycle campaigns. Referral programs. Creator Advisory Panel.

05

Feature Excellence
Main Stage upgrades, call quality, Hangout→Slack bridge, creator analytics, ticketed shows.

Foundation

MONTHS 0-3 · INFRASTRUCTURE, ATS, AUTOMATION

WEEK
0

Lock the Baseline

- Document current users, PRIME subscribers, active creators, MRR
- Define roles in writing: Santino, Carlos, Miguel
- Zoho One workspace created and configured
- Business bank account confirmed and operational
- All existing processes documented

MONTH
1

Business Infrastructure

- Zoho Books: all expenses + NowPayments income auto-synced via n8n
- Zoho CRM: users + creators imported, lifecycle stages configured
- Zoho Recruit: ATS pipeline live — all 9 welfare stages configured
- BullMQ: notification dispatch migrated — nothing lost on crash
- First P&L baseline generated

HIRE #1 — OPERATIONS MANAGER

MONTH
2

Creator Operations

- Welfare audit of all existing active creators completed
- Creator ATS live — every new application goes through the 9-stage pipeline
- Slack ops hub live: #ops-payments, #ops-incidents, #ops-creator, #support-human
- Support escalation: Cristina AI → #support-human Slack thread (bidirectional)
- BullMQ: all payment flows are persistent, retried jobs

HIRE #2 — CREATOR SUCCESS MANAGER

MONTH
3

Automation Foundation

- n8n live: 5 core workflows — user→CRM, payment→Books, creator approved→welcome, 2257 expiry chain, churn→re-engagement
- Circuit breakers on every external API: NowPayments, Telegram, Slack, Grok, SMTP, LiveKit
- 2257 expiry fully automated: 14d → 7d → 3d → 1d warnings → auto-suspend
- Harm reduction partnerships identified: 2-3 LGBTQ+ orgs in LATAM

HIRE #3 — WELFARE & SAFETY OFFICER

Q2

Operations & Reliability

MONTHS 4-6 · CREATOR COMMS, MARKETING ENGINE, PLATFORM STABILITY

MONTH
4

Creator Communications

- 80% creator Slack adoption — #ext-[handle] channels live for all active creators
- 6 training Canvases + Loom tutorial videos published in Slack
- Creator notifications: Slack-only — in-app notifications disabled for creators
- Zoho Campaigns: welcome drip + creator onboarding sequences live
- Creator Advisory Panel invited: 5 rotating creators, paid in Ru\$h tokens

HIRE #4 — CONTENT / COMMUNITY MANAGER

MONTH
5

Marketing Engine

- All broadcast-*.js scripts replaced by Zoho Campaigns
- Creator referral program live (500 Ru\$h bonus for both parties, 90 days)
- Member referral program live (1 free month for the referrer)
- First re-engagement campaign: churned PRIME subscribers, A/B tested on subject line
- OpenTelemetry + Grafana Tempo live — every slow API query now has a trace

HIRE #5 — GROWTH MARKETER

MONTH
6

Platform Reliability

- Notification Service extracted to its own Docker container — failures don't touch API
- Socket.IO Redis adapter live — horizontal scaling ready without code changes
- Stream recording → automatic VOD pipeline via LiveKit Cloud recording API
- Mux Data: viewer count + quality score in Grafana dashboard
- First quarterly P&L review presented to leadership

HIRE #6 — DEVOPS / SRE

MILESTONE GATE — MONTH 6

- ✓ Zoho One fully operational
 - ✓ ≥ 80% creators active in Slack
 - ✓ Zero silent job failures (30 days)
- ✓ All 6 hires in place
 - ✓ Zero manual broadcast scripts
 - ✓ First quarterly P&L reviewed

Q3-Q4

Excellence & Scale

MONTHS 7-12 · FEATURE UPGRADES, REVENUE, PHASE 3 SCOPING

MONTH 7

MONTH 8

MONTH 9

MONTHS 10-12

Feature Excellence

- Main Stage: tipping animations, live viewer polls, pre-stream lobby + countdown, health display
- Private Calls: LiveKit Krisp noise cancellation, post-call star ratings, extension booking mid-call
- Hangout → Slack bridge: creators monitor and reply from Slack in real time
- Creator analytics dashboard live at /creator/analytics

HIRE #7 — CX LEAD

Revenue Diversification

- Ticketed shows launched on Main Stage (schema exists — frontend only needed)
- Creator Training Certification: paid Creator Academy access for non-creators
- Creator profile boosts: Ru\$h CPM model surfaced in discovery
- First paid marketing test: Telegram Ads (adult-friendly)
- All creators sign updated platform agreement via Zoho Sign

Consolidation

- Media Processing extracted to CPU-isolated container — video encoding no longer competes with API
- Full 2257 compliance audit — n8n auto-suspends any expired creator
- 6-month welfare check-in with every active creator
- Year-end tax preparation begins with Ops Manager + local CPA
- Second quarterly P&L review

Scale Readiness + Phase 3 Scoping

- Annual load test: simulate 10x current peak traffic, identify and fix bottlenecks
- All 10 team members in place and fully onboarded
- First annual P&L + tax filing: Ops Manager + local CPA
- Annual OKR review — measure every KPI against Phase 2 targets
- Creator Advisory Panel annual review — their input shapes Phase 3
- Phase 3 scoping: B2B platform licensing, cloud migration, investor readiness

04 — TOOLS & FINANCIALS

Tool Adoption & Budget

Tool	Purpose	Live By	Monthly Cost
Zoho One	CRM + Books + Campaigns + Recruit + Sign	Month 1	\$111
