## THE PROBLEM

# Queer communities are underserved by every major platform

---

### Shadow Banning

LGBTQ+ creators on TikTok, Instagram, and YouTube face systematic content suppression — queer content ranks lower, gets age-gated, or is removed without warning.

### Payment Exclusion

Stripe and PayPal routinely freeze accounts for adult or queer content. Creators lose months of earnings overnight with no appeal process.

### Latin America Gap

40M+ LGBTQ+ Spanish-speakers in LATAM lack a dedicated platform. Grindr, OnlyFans, and Scruff have zero Spanish-language community features.

### No Safe Space

### Algorithm Hostility

### Privacy Risk

PNP communities (party-and-play) face double discrimination — queer AND drug-harm-reduction content. No platform supports open, honest community conversation.

General platforms optimize for mass audiences. Niche queer creators earn 60–80% less than comparable straight creators for identical content.

Being out is still illegal or dangerous in 64+ countries. General social platforms expose user identity to governments and abusive family members.

## THE SOLUTION

# One platform. Built from the ground up for **queer creators and community.**

MARKET OPPORTUNITY

# A \$12B market hiding in plain sight

The LGBTQ+ creator economy sits at the intersection of three explosive markets: adult content monetization, niche social platforms, and the Latin American digital economy.

COMPETITIVE POSITIONING

Score: Spanish support × queer-first × crypto payments × community × creator tools

# Multiple revenue streams. Creator-first economics.

## PRIME Subscriptions

Monthly and lifetime user subscriptions (\$9.99/mo or \$99 lifetime) unlocking exclusive content, priority discovery, and ad-free experience.

**\$9.99/mo**

## Creator Channel Subs

Per-creator subscription tiers. Platform takes 30% commission; creator keeps 70%. Stacked entitlements unlock specific hangouts, video libraries, and call booking.

**30% take rate**

## Live Tips & Calls

Real-time crypto tips during live streams, paid Book-a-Call private sessions (per-minute billing), and hangout entry fees for premium communities.

**70/30 split**

## Paid Content Gates

## Creator Studio (B2B)

## Add-on Plans

Individual video purchases and PPV live events. One-time entitlement grants for exclusive content without requiring ongoing subscription.

White-label platform licensing for agencies and media companies. Separate revenue stream — see Creator Studio pitch deck for full detail.

Modular entitlement bundles (media packs, hangout access, channel passes) sold independently via the plan builder — upsell without requiring PRIME.
