

The Social Platform Built for Queer Community.

A live-streaming, community & creator monetization platform for queer PNP communities across Latin America and beyond.

LIVE STREAMING

CREATOR ECONOMY

COMMUNITY CHAT

LGBTQ+ FIRST

CRYPTO PAYMENTS

Queer creators are underserved by every major platform.

Shadow Banning

LGBTQ+ content on TikTok/Instagram gets age-gated or removed without warning. Queer creators earn 60-80% less than straight creators for identical content.

Payment Exclusion

Stripe and PayPal routinely freeze accounts for adult or queer content. Creators lose months of earnings overnight with no appeal process.

Latin America Gap

40M+ LGBTQ+ Spanish-speakers in LATAM have no dedicated platform. Grindr, OnlyFans, Scruff: zero Spanish-language community features.

No Safe Space

PNP communities face double discrimination — queer AND harm-reduction content. No platform supports open, honest community conversation.

Algorithm Hostility

General platforms optimize for mass audiences. Niche queer creators are systematically deprioritized in discovery algorithms.

Privacy Risk

Being out is illegal or dangerous in 64+ countries.
General platforms expose identity to governments
and abusive family members.

One platform. Built from the ground up for queer creators and community.

PNP Live

RTMP live streaming with real-time tips, co-hosting, scheduled time slots, Main Stage mode. Creators keep 70% of all revenue.

RTMP REAL-TIME TIPS
70% CREATOR

Hangouts

Private and public group communities with threaded topics, moderation tools, media sharing, LiveKit video rooms, and telegram bridge.

LIVEKIT TELEGRAM BRIDGE

PNP Channels

Subscription-gated VOD library with AI-generated descriptions, per-channel access tiers, playlist support, and CDN delivery. (Formerly Videorama.)

AI DESCRIPTIONS TIERED ACCESS

Privacy-First

Pseudonymous profiles, scoped access control, crypto-first payments (Bitcoin, Dash, USDT), geo-block override.

BITCOIN PSEUDONYMOUS

Familiar rhythm. Unfamiliar respect.

Every muscle-memory you have from Instagram, Facebook, and old Tumblr works here.

What's different is who's in charge.

*The instincts you already have from old-school social media — scroll, tap, follow, DM — work exactly the way you expect them to. But instead of one algorithm-policed feed, PNPtr is a network of purpose-built spaces for different niches, so you move freely between the parts of the community you actually care about. **It feels private the way trusted rooms feel private — never the way sketchy ones try to hide.***

Not a Single River

Feed, PNP Channels, Hangouts, Live, Nearby — each is a purpose-built surface for a distinct community mode.

Rooms, Not Walls

Cross between public + private, free + paid, always-on + scheduled — friction-free, without leaving the app.

Ours, Not Theirs

No morality clauses. No algorithm optimizing for engagement over consent. It's private because it's ours.

Everything a creator needs. Everything a community wants.

Prime Hub

Discovery feed, creator profiles, follow system, PRIME tier content gate.

PNP Live

Live streams, real-time tips, co-hosting, scheduling, audience analytics.

Hangouts

Group communities, topics, moderation, LiveKit video rooms, Telegram bridge.

Direct Messages

End-to-end encrypted DMs with media, reactions, swipe-to-reply.

PNP Channels

VOD library with tiered access, AI descriptions, playlists, podcast support.

Book-a-Call

Paid private 1:1 video sessions with LiveKit, time-slot booking, escrow.

Radio / Podcasts

Apache-powered music radio and podcast channel integration.

Cristina AI

AI assistant for community onboarding, content discovery, harm reduction.

Wall of Fame

Daily featured content from community hangouts, promoted in social feed.

Gamification

La Perrera Weekly Throne ranking, badges, community group titles.

Sovereignty stack.

Three pillars that no vertical incumbent covers simultaneously. Competitors have zero, one, or partial coverage. We ship all three — every one backed by 2026's peer-reviewed academic + regulatory research.

01

IDENTITY

Passkeys + magic-link aligned with W3C Verifiable Credentials 2.0. Zero-knowledge age proofs — prove >18 without surrendering PII.

02

PAYMENTS

Non-custodial crypto rails (NowPayments + BTCPay). CFTC no-action relief on self-custody wallets. Zero chargeback risk via smart-contract escrow.

03

DATA + GEO

Territorial content control. GDPR + national data-residency by architecture. Portable reputation — leaving = you keep it all.

Competitor coverage: **OnlyFans 1/3 · Fansly 1/3 · JustForFans 0/3 · PNPtv 3/3.**

Sources: W3C VC 2.0 · New America (SSI) · TRM Labs Global Crypto Policy 2025/26 · Elliptic 2026 Outlook · CFTC No-Action Relief 2026 · US Treasury GENIUS Act. Full manual in workspace.

NZ 2003 → Colombia 2024 → the world.

The regulatory frontier is moving from criminalization to full decriminalization + labor rights. PNptv is built for the civilized-model horizon — ready to expand into any market as it liberalizes.

NZ PRA (2003)

Full decriminalization of adult voluntary sex work. Up to 4 workers can co-op without state certificate. Occupational health & safety mandatory. 20+ years of empirical evidence: workers turn away dangerous clients, negotiate safely, report assaults without arrest fear.

COLOMBIA PL290 (2024)

Mandatory formal labor contracts. Minimum-wage floor. Full social security (health, pension, ARL). "PRASP" — non-criminalization principle. Currently in Senate Seventh Committee.

*"The horizon toward which emerging legislative efforts should **inevitably converge**." — Manual §9. This is not our opinion — it's the international human-rights standard. Every product feature already complies.*

Community-led growth. Zero paid acquisition needed.

25%

OPERATIONS & LEGAL

2257 compliance, LATAM entity, privacy attorney, 18-month runway.

"The queer community has always built its own spaces when the mainstream failed it. PNptv! is that space — built with privacy, respect, and 70 cents of every dollar going to the creators who make it real."

— Carlos Jiménez, Founder
