

PNPtv! Creator Studio.

White-Label Creator Platforms for Media Companies.
A fully managed SaaS platform that lets agencies, talent managers, and content networks launch their own branded creator economy — powered by PNPtv! infrastructure, deployed in days.

WHITE-LABEL

B2B SAAS

CREATOR ECONOMY

LIVE + VOD + COMMUNITIES

CRYPTO PAYMENTS

Every media company needs a creator platform. Most can't build one.

\$2M+ Build Cost

Comparable platform costs 18-36 months and \$1.5-2.5M to build. Creator Studio deploys in 7-14 days.

Speed to Market

Agencies lose creators to competitors while waiting for custom builds. Zero engineering overhead with Creator Studio.

Maintenance Burden

40% of engineering capacity goes to security patches, payment compliance, infrastructure — not features.

Payment Complexity

Integrating crypto + regional payment methods for adult/queer content is extremely hard. We've already solved it.

LATAM Underserved

No white-label platform has Spanish-language-first UX, LATAM crypto payment rails, or LATAM content compliance.

2257 Compliance

Adult content platforms require 18 USC §2257 record-keeping. Most white-label solutions skip it — massive legal liability. We built it in from day one.

Your platform. Our infrastructure.

WHAT CLIENTS BRING

- Their brand (logo, colors, domain)
- Their creator roster
- Their community & audience
- Their content strategy

WHAT WE PROVIDE

- ✓ Complete full-stack platform (hosting + infra)
- ✓ All payment integrations (crypto + fiat)
- ✓ Live streaming, VOD, communities, DMs
- ✓ AI moderation + content assistance
- ✓ 2257 compliance infrastructure
- ✓ Ongoing updates + security patches
- ✓ Dedicated support + SLA

Analytics

Not gig economy. Not extractive.

Creators keep 70% of everything. No morality clauses. Their audience is theirs — even if they leave.

ONLYFANS, ETC.

20% platform take

Morality clauses can freeze accounts

Audience locked in — leaving = losing everything

Payout dictated by their processors

Chargeback risk — creators lose paid work

PNPTV CREATOR STUDIO

30% platform take (creator keeps 70%)

No morality clauses — cooperative principles

Portable audience — DMs, followers, reputation are creator's

Self-custody payouts — crypto directly to wallet

Zero chargebacks — smart-contract escrow

Grounded in the **CIRIEC platform-cooperativism model** — 77% of cooperative workers report they set their own schedule. Sell this to creators, not just clients.

Who buys Creator Studio.

Talent Agencies

Agencies managing 10-100 adult content creators who currently rely on OnlyFans (20% fee, no analytics). Studio gives them a branded platform with direct billing.
ICP: LATAM adult talent agencies — ~200 agencies in MX, COL, ARG managing 5-50 creators each.

LGBTQ+ Media Companies

Gay/queer media brands that want to launch a dedicated creator platform with privacy controls and crypto payment rails.
ICP: LGBT media/events organizers — Pride festivals, gay bars, queer podcasts.

Independent Creator Networks

Collectives of adult or alternative creators who want to co-own their platform, split subscription revenue among members with custom tier pricing.
ICP: Creator co-ops, fan clubs, 5-30 creators.

Harm Reduction Organizations

NGOs serving drug-using or sex-worker communities that need a private, censorship-resistant community platform for outreach and peer support.
ICP: NGO/harm reduction networks across LATAM.

Simple, transparent licensing.

LAUNCH

\$499 /mo
+ 15% GMV · billed annually

- ✓ Up to 20 creators
- ✓ Basic white-labeling (logo + domain)
- ✓ All core modules
- ✓ Live streaming + VOD
- ✓ Community hangouts

- ✓ AI moderation included

ENTERPRISE

Custom
Negotiated GMV · annual contract

- ✓ Everything in Growth
- ✓ Dedicated infrastructure
- ✓ Custom feature development
- ✓ White-glove onboarding
- ✓ SLA guarantee (99.9% uptime)
- ✓ Dedicated account manager
- ✓ Custom API integrations
- ✓ Multi-region deployment
- ✓ Legal & compliance support
- ✓ Quarterly roadmap input
- ✓ Negotiated revenue share
- ✓ Custom analytics exports

One-time setup fee: \$2,500 (Launch) · \$4,000 (Growth) · Custom (Enterprise) · GMV = gross merchandise volume processed through platform.

Signed contract to live platform in under 14 days.

1**Onboarding Call**

Discovery session to understand brand, creators, audience, required modules. Contracts signed.

2**Brand Config**

Logo, color scheme, domain DNS, custom CSS applied. Preview environment spun up in 24h.

3**Infra Spin-Up**

Isolated VPS provisioned, database seeded, SSL configured, payment credentials connected. 3-5 days.

4**Creator Onboarding**

Creator accounts migrated or created. Payment info collected. Training session with team.

5**Go Live**

DNS flipped, monitoring enabled, support channel opened. First creator goes live within 14 days.

**Data Isolation**

Every client gets a completely isolated database and infrastructure. Your data never touches another client's.

**Automatic Updates**

Security patches and new features deployed automatically. Clients always run the latest version.

**Revenue Dashboard**

Real-time analytics: creator earnings, subscription growth, live stream performance, payment health.

Avg. time to launch: **8 days.**

No one else is doing this for the queer creator economy.

FEATURE	CREATOR STUDIO	FANVUE	SCRILE CONNECT	MIGHTY NETWORKS	USCREEN
White-label (fully branded)	✓	—	✓	✓	✓
Live streaming + paid tips	✓	✓	✓	—	—

Enterprise (10%)

Combined with App revenue:

**\$3.7M ARR —
Year 3**

Creator Studio + PNPTv! App combined.

Your body. Your bank. Your data.

What Creator Studio clients get to promise their creators — three sovereignty layers that no incumbent offers together.

IDENTITY

Passkeys + ZKP age proofs.
Compliance without surrendering PII. Creators & users prove >18 without giving up name or DOB.

BANK

Crypto payouts direct to creator's wallet. No bank freeze. No processor "review." No 30-day hold surprise.

DATA

Portable reputation, portable audience, portable content. Leaving = they take it all with them.

*Backed by **Manual \$4, \$5 & \$6** — Self-Sovereign Identity, non-custodial finance, and physical/digital safety architecture. Every layer verifiable and revocable by the creator alone.*

This is the differentiator you sell to creators after selling the client on the licensing tier. It's why creators stay, and why churn is 26+ months.

Three tailwinds converge in 2026.

OnlyFans Backlash

After 2021's failed adult content ban, thousands of creators want alternatives. Agencies actively shopping for white-label replacements.

Crypto Normalization

Bitcoin ETF approval (2024) and stablecoin legislation (2025) made crypto mainstream for creators excluded from card payments.

LATAM Digital Boom

Latin America added 55M new internet users in 2023–2025. Creator economy growing 3x faster than global average.

SEED ROUND
